

$$x^2 + y^2 = 16$$

A graph of the circle  $x^2 + y^2 = 16$  on a Cartesian coordinate system. The circle is centered at the origin (0,0) and has a radius of 4. The x and y axes are shown with tick marks every 1 unit. The circle is drawn in blue. Two points on the circle are marked with red dots: one in the second quadrant at  $(-3, \sqrt{7})$  and one in the third quadrant at  $(-3, -\sqrt{7})$ . The label  $(-3, \sqrt{7})$  is placed next to the point in the second quadrant.

$$(-3, \sqrt{7})$$
